CELEBRATING SUMMER 2021

Summer 2021 saw the reopening of our in-person camps in 9 locations across Canada and Northeastern America. We were able to host successful in-person camps with a camper cohort model, daily covid screening, and adapted programming to ensure the safety of everyone at camp each week. We welcomed back many returning campers that we met online and from previous summers in person!

Thank you to our campers, staff, and families for joining us in person this summer for a fun and safe camp summer!

2021 NEW SCHOOL PARTNERS

This summer we had two new partnerships for our in-person camps. Toronto North Debate Camp was hosted this year at York University's Centre for Excellence on the Glendon Campus. This was a wonderful space and a great location for in-person Toronto Debate Camp.

Montreal Debate Camp this year was hosted at Selwyn House School. A beautiful site for the return of in-person camps to greet returning campers and interns and meet new campers and families.

SEPTEMBER FEATURED STAFF

CHAYA TONG

Summer 2021: Boston staff

Education: I am a freshman at Emory University in Atlanta, Georgia, and am studying English and History.

Future Goals: I hope to pursue a career in law, writing & publishing, or journalism.

Debate Camp: Former Boston Camper and intern program grad! I loved Debate Camp so much I continued to do debate and public speaking throughout my high school career!

Favorite 2021 Camp Memory: My favorite camp memory was watching my campers get really excited about MUN and playing lots of competitive UNO!

Why Debate Camp: Campers learn how to think on the spot, improve at public speaking and parliamentary debate, explore Model UN, and have lots of fun! Through debate topics they will also be exposed to a wide range of subjects from politics and government to philosophy!

If you could be any sea creature, what would you be and why? I would be an octopus so I could reach everything!

ONLINE MODEL UN CAMP

This summer we ran two successful online Model United Nations Camp. Throughout the program, campers learned how to research and recognize the assets of a variety of nations, work in groups to draft resolution papers, and speak confidently on their country's behalf.

From space races, to Greek mythology, to oil spills in the pacific, our simulations this summer were truly out of this world!

BEND YOUR HEAD MINI

Q1: What is the world's largest animal?

Q2: Which sea creature has no brain and no blood?

Q3: Which sea creature uses camouflage to blend in with its surroundings?

Q4: What is the minimum number of fish to make up a school?

Q5: What year was Debate Camp founded?

Submit your answers to info@debatecamp.com for a chance to win a Debate Camp prize!

SEPTEMBER FEATURED INTERN DYLAN BURTON

Summer 2021: Toronto intern

Education: Grade 11 IB student at The York School. My favourite subjects are economics and history.

Future Goals: I'd love to travel and study abroad and use that experience to get a job in business, economics, or law.

Debate Camp: Former Camper!

Favorite 2021 Camp Memory: Playing chess with campers! They loved every second and enjoyed teaching me something they know a lot about which helped construct a great atmosphere for the rest of camp activities.

Why Debate Camp: Debate Camp provides people with a unique camp experience that you won't get elsewhere. It blends the fun, wholesome camp activities that you might expect at a traditional camp with the lifelong skills and exposure to the world that debate offers. I cherish the confidence and independence that Debate Camp taught me to this day.

If you could be any sea creature, what would you be and why? I Probably a shark because you can travel the world into any ocean and explore virtually anywhere without feeling like everything would kill you.
